

WORLD HAPPENINGS BRIEFLY TOLD

Severely frosted cattle, presented to the Red Cross Agricultural Fund, resulted \$40,000 at a heading sale.

An Edmonton (London) rest centre has received a quilt bearing the names of 150 residents of its nameless town in Canada.

The Ocean of South Africa is shipping coal to South America in accordance with a pooling scheme evolved by the United Nations.

Three thousand acres of cottons, some 70,000 to 100,000 tons, have been donated in Britain for storage and use during the winter.

Army jeeps are being tested at the University of Saskatchewan to see how they can be used in farming after their present job is cleaned up.

A Stockholm physician, who was despatched recently having attended Benito Mussolini, was reported to have said Mussolini has only six months to live.

Thirty Canadian service men including a full-blooded Indian, at the University of Toronto at Leeds University. They visited a large army and explored its depths.

Alfa will be called upon to feed at least 100,000 persons throughout Europe between now and the end of 1945, Francis B. Sayre, special assistant Secretary of State said in Chicago.

The 1850-ton cruiser ship, presently in Britain to be replaced in 1945 to replace the 10,000-ton Canberra, laid in a naval berth at a cost of the Royal Australian Navy.

The first army clothing factory in the world, now one of the largest, which started in 1941 with 10 machines and in 1945 now has 275 power machines and 1200 work men, who produced 100,000 garments a month.

Sugar Beet Production

Sugar Beet in Southern Alberta

Said To This Industry

Sugar beet production is particularly important in Southern Alberta. Irrigation areas. In no other part of Canada is the industry so efficiently conducted. If it can be further mechanized so that labor costs are brought down, the value within the realm of possibility that Southern Alberta may be able to export bulk of Canada's sugar needs in the years to come.

Alberta is short of industries and it seems to be well worth while to encourage the development of such an industry. It is not only a good market for a specialty farm crop and brings a considerable return to the producer, but it also gives employment to a considerable number of people in the production of the sugar factories—Calgary Herald.

JUST SAWS WOOD

The woodpecker is a realist. With its long beak in a hole, if it looks under a fork of bark it is for good cause. In the spring it excavates a tiny nest, but only in a softened tree. Even then it will hide the child in case predators are nearby were watching. Mostly, it says nothing—and saws wood.

More than one-half of the water used in London comes from the River Thames.

NATIONAL SELECTIVE
SERVICE

A WORD OF CAUTION

TO MEN OF MILITARY AGE
AND TO THEIR EMPLOYERS

National Selective Service Civilian Regulations authorize the Minister of Labour to require that male employees furnish their employers with evidence that they have not failed to comply with National Selective Service Mobilization Regulations (see the Military Call-up).

It is intended that an order will be issued shortly, requiring employers to carry out the necessary check on their male employees, and to report any men who do not produce the required evidence of compliance.

The check up will cover every male employee who has reached the age of 18 years and six months and has not reached his 26th birthday. The man will have to show evidence in one of the following forms:

- A man discharged from the Armed Forces following service during the present war should have his discharge certificate. A discharged man who has not a certificate should apply for one in the following manner:
Army—District Office Commanding Military District in which discharge took place.
Air—Records Office, R.C.A.F. Headquarters, No. 5 Temporary Building, Ottawa, Ont.
Navy—Secretary of Naval Board, Ottawa, Ont.
- A man who has responded to a direction from a Registrar of a Divisional Mobilization Board, to report for medical examination under Mobilization Regulations, should have either a certificate of fitness or an order for exemption of military training from the Divisional Registrar. (A man entitled to other documents who has but his certificate should immediately apply to the Divisional Registrar who issued the original, for a duplicate.)
- A man who has been rejected on application for military enlistment in the Army since the beginning of the war, should have a certificate showing that he was rejected through medical unfitness. If a man entitled to such a certificate does not possess it, he should apply to the District Military Headquarters of the District in which he applied for enlistment, in order to procure the necessary form.
- A man in the designated classes who has not reached his 26th birthday, and who was married as at July 15th, 1946, or who

This caution is issued to facilitate compliance with the order which is proposed. A reasonable interval will be allowed to permit men to provide themselves with whatever document, as referred to above, they may be entitled to hold.

Employers are requested to give notice of this proposal to their male employees, to facilitate the operation of the order when issued.

VICTORY LOAN CAMPAIGN

Men of the armed forces are buying Victory Bonds at a rate which sets a pace for civilians. Out of their modest rates of pay they are handing over many millions of dollars to the Government, to help keep munitions and supplies rolling to the fighting zones. Their example is all the proof we as civilians need that buying War Bonds is not in the least a matter of casual choice, but a duty we owe to ourselves and the Dominion of Canada for the opportunities and safety we enjoy in every day life; and taking everything into consideration, suffice it to say that farmers to whom we are much better off than ever before.

Delia's quota for the Fifth Victory Loan has been set at \$92,000. Of this amount \$19,500 had been subscribed up till the morning of Tuesday of this week with some collections to come in. Owing to adverse weather conditions there have been in anything but good condition for travel, making it difficult for salesmen to get out to get their quota. It calls on people in the various districts. It would facilitate collections greatly if those who intend buying Victory Bonds would call at Gibson's Garage, head-quarters for the Loan, and leave their order with them in charge, or call at the Town Hall, Delia, and see Leslie Stephens, the secretary.

Local and District

W. A. Low, LL.B., Calgary, will be in Delia on Saturday, October 30, at Queen's Hotel.

Mrs. John Kinsick received a telegram on Saturday from Ottawa, notifying her of the death of a brother.

Emerson Reid, of the R.C.A.F., arrived home on Monday of this week on furlough.

Owing to pressure on our space several news items are held over until next week.

Mrs. Clyde Pullar, of Calgary, was a visitor in Delia over the week end, the guest of Mr. and Mrs. John Sakalak.

The sale held on Saturday last by W. D. Fitzsimmons was quite successful, and everything sold brought good prices.

Delia's quota for the Fifth Victory Loan stands at \$92,000. Up till Tuesday last there had been 78 applications to buy bonds and a total of \$19,500 subscribed.

Mrs. Walter Thompson, from Granum, Alberta; and Mrs. Duncan Thompson, of Carlyle, Sask.; spent a few days with their aunt, Mrs. J. Kinsick, and Percy, in Delia recently.

The following enlisted in the Royal Canadian Mounted Police at Calgary recently—Shirley E. Collicott, Cragville, on October 9th, as wireless operator; and Russell A. Fletcher, Delia, on October 14th, as aircrew.

The Delia branch of the Canadian Red Cross is deeply grateful to Alexander Benton, of the Majestic district, for his generous donation of a five month old cow, sold at the Calgary Livestock Show and sale on Wednesday last, for \$39.00.

Following the previous two or three days of cold weather and keen frost, the first snow of the season fell on Saturday. By Monday it had disappeared, and milder weather now prevails. The temperature has been about 50 above since Monday.

Planning How To Repair Farm Machinery

Lethbridge Experimental Station
Wesley Lyster

An ideal time to plan winter repairing of farm machinery is just before the machines are being put away for the winter. Most of the machines have been used recently and we know the repairs that are needed. Those who plan their work carefully, check each implement at this time of the year and make a list of the requirements. Then at the time they have to do the work they can make the needed repairs.

This procedure is especially important now when new machines are scarce and repair parts are in such demand. A wait of two or three weeks for parts is not serious in the winter, but it may mean loss of valuable time during the cropping season.

If every farmer would carefully check his machines while he still remembers their summer performance and then would make the necessary repairs, there would be fewer demands for machinery parts and much less loss of time during the rough cropping season. This is a simple matter but one that is frequently neglected, so this letter is written just as a reminder to farmers to be prepared.

10c Charge to Draw Chicken

Drawn poultry may be sold at a cent a pound above the maximum price for the same kind of poultry not drawn, according to Wartime Prices and Control Board. Order. It warrants this price increase, head, feet and all internal organs must be removed. The cleaned gizzard, heart and liver may be included in the weight of the drawn bird.

If a customer requires a retailer to draw a chicken for him, the retailer may charge up to ten cents for the job.

"Time Bombs"

It is easier to show people, or to blow them up, than it is to build them up. But not nearly so effective.

Instead of having to get a different person for the job, you may find it possible to make the person different.

Good plans don't make people a plan. It takes good people to work a plan.

Wreckers from some people, like cracks in a wall, may indicate insecure foundations.

When we don't talk for effect, we are more effective.

All the scrap that we've sent in brings victory to our labors. But peace will mean that we must scrap.

Our scrapings with our neighbors.

Meat Consumption in Canada

During 1942 the average consumption of meat in Canada was 132.9 pounds per capita of the total 1942-43 consumption, according to a recent release issued by the federal office of statistics.

Beef was the most favored meat, the average per capita consumed in 1942 being 68.1 pounds. Pork came next with 45.1 pounds, real at 10.9 pounds; and edible offals totalled 6.9 pounds, while consumption of mutton and lamb totalled only 6.2 pounds per capita.

The increase in meat consumption in 1942 over 1941 was 2.1 pounds per capita, but the increase over the 1935 per capita meat consumption was 24.1 pounds.

Crop Failure Bonuses

A total of 150 Alberta townships have reported wheat yields averaging less than 12 bushels to the acre this year. This entitles farmers subject to government bonuses under the Prairie Farmers' Bonus Act, which became operative in 1945, with the average wheat yield of each township.

Flash!—Following is latest on progress Fifth Victory Loan

Tuesday sales yielded \$70,044, 300, virtually the same as Monday's subscriptions, and bringing the cumulative total of Canada's Fifth Victory Loan to \$657,229, 500. The corresponding cumulative total stood at \$553,985,100 for the same period in last loan.

INFORMATION

For Western Farmers Selling
Feed Grains to Eastern Farmers

WHEAT • OATS • BARLEY

1. Wheat, up to 14 bu. per authorized acre and one car of oats and/or barley over the quota may be shipped.
2. Every seller must apply to the Canadian Wheat Board, Winnipeg, for a permit to ship each carload before loading for shipment.
3. Cars shipped will be inspected at Winnipeg for grade and dockage. On the basis of sample inspection, certificates will be issued by the Board of Grain Commissioners, for cars held "too full" for regular inspection. The Inspection Certificate establishes the grade and dockage.
4. Dockage up to 5% is allowed. Dockage above 5% cannot be charged for, and payment will not be made for the difference in weight between 1% and the actual dockage.
5. Elevator scale tickets or railway weights must accompany the bill of lading. Freight charges are to be paid by the farmer in Eastern Canada.

PRICE INFORMATION

On oats and barley the price per bushel to be charged the eastern farmer is the ceiling price (or the cash price if it is lower), basis in store at Fort William or Port Arthur.

GOVERNMENT SUBSIDIES AVAILABLE

As announced by the Dominion Government, the subsidy of 10c per bushel on oats and 15c per bushel on barley applies on oats and barley sold by way of western farmer to a farmer or other person in the Dominion of Canada. Special application dealer set of form William Port Arthur. Special application must be made to the Canadian Wheat Board, Winnipeg, in order to secure payment. Special forms for this purpose will be provided by the Canadian Wheat Board on request. These subsidies will also be paid on community sales between farmer and farmer in western Canada, provided the farmer delivers the grain over an elevator scale and meets other requirements of the Wheat Board.
